What is a verb?

Verbs are the action words in a sentence that describe what the subject is doing. Along with nouns, verbs are the main part of a sentence or phrase, telling a story about what is taking place.

What are Regular Verbs?

Regular verbs are a form of verbs that follow the normal rules of conjugation, that is, they follow a typical pattern for changing verbs into their past, past participle or future tense forms. Usually, **-ed** or **-d** is added to regular verbs when used in the past tense or in case the word ends with a 'y' then the 'y' is removed, and **-ied** is added.

What are Irregular Verbs?

Unlike regular verbs, irregular verbs do not follow the normal rules of conjugation to form their past, past participle, or future tense forms. In other words, any verb that does not add **-ed**, **-ied**, or **-d** to its past tense form is considered an irregular verb. Irregular verbs are sometimes also called strong verbs.

Past Simple Tense

Past Simple tense is used to represent an action/event that took place in the past.

Future Simple Tense
